Stop microsoft.

They are destroying us all.

Where once I could get a \$40/hr job in one hour, I have now been unemployed for over a year. Why? Because Microsoft technology has taken over the market, and being a unix person, there is nothing left for me, even though my state-sponsored school insisted everything would be Unix.

Thanks for nothing.

If the supreme court has any sense of justice, microsoft will be broken up.

One OS? I don't think so.
